

Technology Concepts

Study Guide

- Active Cell in a Spreadsheet
- Communication Technology that is used to Provide Medical Information and Services
- Computer User vs. End User
- Denial of Service Attacks
- Docking Stations
- Field vs. Record
- Hacking vs. Unauthorized Access Vs. Unauthorized Uses
- How Data is Sent in a Transmission
- HTTP vs. FTP vs. ISP
- Internet Search Techniques
- Mathematical Operations vs. Logical Operations
- Modulation vs. Demodulation
- Network Equipment
- Parts of the URL
- POS Terminal
- Printer Categories
- Public Domain Software
- Spreadsheet Terminology
- Telecommuting Equipment
- Terminology---Characters, Half Duplex, Full Duplex, Microcomputer, Peripheral Equipment, Website, Hyperlink, Super Computers, Mainframe, Ethernet, Linus, Unix, Records, Files, Databases, Batching, Booting
- Types of Cell Content
- Types of Cells in a Spreadsheet
- Types of Data
- Types of Data Transmission
- Types of Network Equipment
- Types of Network Topologies
- Types of Networks
 - Wan
 - Lan
 - Pan
 - Man
- Virtual Private Network
